MESSAGE FROM YOUR UNIVERSITY LIBRARIAN

It’s an exciting time at the Emory Libraries, and we are eager to partner with you to advance your research and teaching. The Libraries offer expertise, tools, technology centers, programs, and spaces to enable creativity and innovation and an active community for scholarly inquiry and discovery.

Ranked among the top 20 Association of Research Libraries (ARL) in North America, the Emory Libraries in Atlanta and Oxford, Georgia, provide intellectual centers with inviting environments specifically built to contribute to the academic enterprise of the university. Our holdings include more than 4.4 million print volumes, more than 900,000 ebooks, 156,000 ejournals, and internationally renowned special collections.

I invite you to learn more about our wonderful libraries by exploring our website and visiting our libraries in person. As always, we appreciate your interest and support.

YOLANDA COOPER
UNIVERSITY LIBRARIAN
RESEARCH

“Accessible library resources play an important role in advancing the research process. Our librarians are committed to support our learning and scholarship in multiple ways, from locating academic sources to collecting data. All distinguish themselves for their competence, responsiveness, and friendliness.”

GIACOMO NEGRO
ASSOCIATE PROFESSOR OF ORGANIZATION AND MANAGEMENT, ASSOCIATE PROFESSOR OF SOCIOLOGY (BY COURTESY), GOIZUETA BUSINESS SCHOOL

CITATION MANAGEMENT
Get assistance with software tools that retrieve and organize information into properly formatted bibliographies.

DATA SERVICES
Find help with creating and implementing data-management plans to meet grant-proposal requirements. In addition, get help with locating relevant data sets and statistical information and organizing data sets to make them more usable for research and teaching.

IDENTIFYING RESOURCES NEEDED FOR YOUR RESEARCH
Identify films, published studies, technical reports, data sets, manuscripts, rare books, and other unique primary and secondary resources for your research and for your graduate students.

GRANTS
Keep up-to-date on federal funding agencies’ changing public-access requirements. Get state-of-the-art literature searches for animal and clinical research protocols; document the impact of funded research renewals.

GIS
Incorporate geospatial technologies, including maps, plots, and data visualization into research to analyze and interpret data.

DATA ANALYSIS
Identify data sources and use quantitative methodologies for your research; also get assistance in developing quantitative assignments for your teaching.

TEXT ANALYSIS
Use text analysis methods to visualize relationships among people, places, or things and model patterns.
TEACHING

COURSE RESERVES
Find out how to place materials on reserve for your students and learn about copyright compliance.

TRAINING FOR STUDENTS
Request workshops tailored to your classes for instruction on developing research skills, advanced search techniques, using databases, and optimizing citation-management programs.

PEDAGOGICAL GUIDANCE
Develop instruction and course material related to exploration, identification, gathering, and filtering of information based on best practices, including the use of primary and secondary sources.

CANVAS TRAINING
Organize and make your course content easily accessible using the Canvas learning management system. Consult with educational analysts on implementing best practices into your course design using Canvas as well as designing assignments around specific technologies to increase student engagement.

MULTIMEDIA AND EDUCATIONAL-TECHNOLOGY TOOLS
Learn to use various technologies such as video, Echo 360 lecture capture, audio, and online storage for coursework. Connect your students with technology resources to complete multimedia assignments using design software, audio/video production tools, 3D printing, virtual reality, and more.

DIGITAL PROJECTS
Design scholarly projects using the resources of the Emory Center for Digital Scholarship (ECDS), which provides consulting expertise, project coordination, and a technology-rich collaborative space.

“I love visiting the Stuart A. Rose Manuscript, Archives, and Rare Book Library with my classes. Whether my students look at drafts of a well-known poem by Seamus Heaney or printed ephemera from the Nigerian-Biafran War, their encounters with one-of-a-kind traces of the past enrich their thinking and writing for the rest of the semester.”

NATHAN SUHR-SYTSMA
ASSISTANT PROFESSOR, DEPARTMENT OF ENGLISH

COPYRIGHT CONSULTATIONS
Contact Scholarly Communications Office (SCO) staff to review your author agreements and book contracts. They also assist with questions related to permissions and fair use in scholarship and copyright exceptions in teaching.

SELECTING A JOURNAL FOR PUBLICATION
Subject librarians can provide information on journals to aid with your selection of a publication that meets your professional goals and is suitable for your manuscript.

RESEARCH IMPACT
SCO or your subject librarian can help you set up your ORCID iD so that you properly get credit for everything you publish. A subject librarian can help you obtain publication-impact information for promotion-and-tenure applications.

OPEN ACCESS
Make your research publicly available by submitting your works to OpenEmory, Emory’s open access research-discovery system of faculty works.

OPEN ACCESS PUBLISHING FUND
Apply for financial assistance through the Emory Open Access Publishing Fund, which can help pay publishing fees when other funding sources are not available.

DATA PUBLISHING
Increase the visibility and impact of your research by making your data publicly available through Emory’s Dataverse.

PUBLISHING OPEN ACCESS SCHOLARLY JOURNALS
Design and launch a digital open access journal. ECDS will help you choose a publishing platform, adopt workflow tools, and set up your editorial process.

“Open sharing of research publications with colleagues, students, and others in the scientific community is critical to the advancement of all scientific disciplines. I deposit my research group’s publications with OpenEmory to quickly share our most current work with the Emory community and the world.”

CASSANDRA QUAVE
CURATOR OF THE EMORY UNIVERSITY HERBARIUM AND ASSISTANT PROFESSOR OF DERMATOLOGY AND HUMAN HEALTH
COLLECTIONS

ONLINE JOURNALS AND DATABASES
The Emory Libraries hold more than 4.4 million print volumes, 1,566,000 electronic serials, and 78,000 print serials. In addition, more than 900,000 ebooks are available through the online catalog.

ACCESS ANYWHERE
Access the library’s databases and journals from anywhere using your Emory NetID and password.

ACQUIRE UNIQUE RESOURCES
Contact us to help identify and acquire films, data sets, manuscripts, rare books, and other unique primary and secondary resources for your research and for your graduate students.

REQUEST A BOOK, JOURNAL, FILM, DATA SET, OR DATABASE
Contact a subject librarian to request material you need for your research and teaching.

INTERLIBRARY LOAN
Need a specific book or journal article that is not in the library? Faculty and students can place and track requests from other research libraries.

DOCUMENT DELIVERY
Request a journal article or book chapter from our print collections and we will email it to you. Eligible materials include journal articles and book chapters from the print collections in participating libraries.

“The DocDelivery service is what I use the most and could not do without. It’s a timesaver. eReserves is invaluable for compiling the readings I need to teach a PhD seminar. The library has been a great champion for promoting and raising awareness of my books.”

SANDY JAP
SARAH BETH BROWN ENDOwed PROFESSOR OF MARKETING, GOIZUETA BUSINESS SCHOOL
